### MEMORANDUM

DATE: March 5, 2018

TO: Approved Third Party Certification Agencies

FROM: Michael J. Hamm, P.E.  
Chief Code Consultant - Manufactured Building Division

RE: 2017 North Carolina Electrical Code Effective Date

Earlier today it was announced that the *2017 NC Electrical Code* (2017 NEC with 2017 NC Amendments) **will become effective on June 12, 2018**. Therefore, *effective June 12, 2018*, when certifying Code Compliance to the current North Carolina State Building Code, whether on the certification cover letter, the submitted plans, or on the building's Data Plate(s), the **2017 NC Electrical Code** *must* be referenced. Thus, as of June 12, 2018 any NC Electrical Code reference year other than 2017 (whether on the third party cover letter or on manufacturer's plan submissions) will not be considered valid. Please make necessary corrections as soon as possible.

cc: Joseph H. Sadler, Jr. -- Deputy Director  
C. Patrick Walker, P.E. -- Technical Services Manager  
Shane P. Phelps -- Building Code Consultant  
Bhavya Nanisetti -- Building Code Consultant  
Manufactured Building Division -- Field Staff
