

Understanding NTA Listing Report Sections

NTA Listing Reports (NLR) are used by code officials to verify that products comply with applicable standards. The NLR provide information about how the product complies with the standard as listed and how the product should be identified.

- 1 Listing Report Number:** A unique number given to every report
- 2 Report Holder:** Name and address of the company that holds an NTA Listing Report
- 3 Product:** The product covered by the report
- 4 Standards:** Listed product(s) is in compliance with the applicable sections of the standards listed here.
- 5 Manufacturing Quality Control:** The manufacturer's quality system has been evaluated in accordance with standards listed here
- 6 Description:** General product description of basic features such as dimensions
- 7 Design:** General design requirements or limitations
- 8 Installation:** General or specific requirements to aid in verifying proper installation
- 9 Evidence Submitted:** General data used in certifying the product (test report, engineering, acceptance criteria, etc.)
- 10 Findings:** Findings specific to each report on compliance
- 11 Markings:** Specific requirements on product identification that describe how product is labeled or marked to show compliance with the NTA Listing Report.

NLR-9999

ICC NTA, LLC Listing Report

- 2 Report Holder Client**
123 Certified Way
Verification ZZ, 00089
- Manufacturing Location(s) Operations**
484 Manufacturing Ave
Verification ZZ, 00089
- 3 1. Product**
1.1 *Structurally Insulated Panels, Wall and Roof Panels 4-ft to 24-ft long, 4-1/2-in. to 6-1/2-in. thick.*
- 4 2. Standards**
ICC NTA, LLC is listing the above product(s) for compliance with the applicable sections of the following standards:
- 5 3. Manufacturing Quality Control**
ICC NTA, LLC has evaluated the manufacturer's quality system in accordance with:
3.1 NTA IM 036 Quality System Requirements
- 6 4. Description**
4.1 *Structural Insulated Panels* are factory-assembled, engineered-wood faced, structural insulated panels (SIPs) with foam plastic core. The product is intended for use as load-bearing or non-load bearing wall and roof components.
- 7 5. Design**
Structural Insulated Panels are factory-assembled, engineered-wood faced, structural insulated panels (SIPs) with foam plastic core. The product is intended for use as load-bearing or non-load bearing wall and roof components.
- 8 6. Installation**
6.1 **General.** *Structural Insulated Panels* shall be fabricated, identified and erected in accordance with this report, the approved construction documents and the applicable code. In the event of a conflict between the manufacturer's published installation instructions and this report, this report shall govern. Approved construction documents shall be available at all times on the jobsite during installation.
- 9 7. Evidence Submitted**
Evaluation evidence and data are on file with ICC NTA, LLC. ICC NTA, LLC is accredited by A2LA as follows:
ISO 17065 Product Certification Agency
- 10 8. Findings**
All products referenced herein are manufactured under an in-plant Quality Assurance program to ensure that the production quality meets or exceeds the requirements of the standards noted herein and the criteria as established by ICC NTA, LLC. Furthermore, product must comply with the requirements of this listing report.
- 11 9. Markings**
Each eligible product shall be permanently marked to provide the following information:
9.1 The ICC NTA, LLC listing mark, shown below.
9.2 NTA's NLR No. NLR-9999
