

CAD SERVICES

Support where you need it most

ICC NTA, LLC, a subsidiary of the International Code Council, is an independent third-party certification agency and a leader in plan review and engineering.

VALUE ADDED BENEFITS

Wouldn't it be nice to have a CAD Service that can not only get your drawings to you, accurate and on-time but also have access to a vast code library?

NTA's CAD Services has that type of forward-thinking. Our technicians work closely with our engineering and review departments - and that enables us to draw with intent to provide support right where you need it most.

Our CAD department can work with your current third-party agency, engineering team, or drafting technician - or we can pull a team together for you at NTA. This means we have the ability to tackle any project - big or small!

CAD SERVICES

Some of the services NTA provides are:

- ▶ Residential modular approvals*
- ▶ Commercial modular approvals*
- ▶ RV approvals
- ▶ Park model approvals**
- ▶ Manufactured housing*
- ▶ Post-frame packages
- ▶ Design using SIPs
- ▶ Structural details
- ▶ Individual components
- ▶ Plumbing isometrics
- ▶ Electrical prints
- ▶ Foundation design
- ▶ Blocking plans

*Not available for third-party in all states

**For approval states and Canada
